

Study Tour in California

Hosted by Fukui Prefectural Board of Education

Group A

The 6th Day
Monday
March 18, 2013

Topic 1 Campus tour

Today we went to Victor Valley College in the morning. We went around the campus with student guides and had the explanations about each department. Then we bought some souvenirs in the shop and had lunch there.

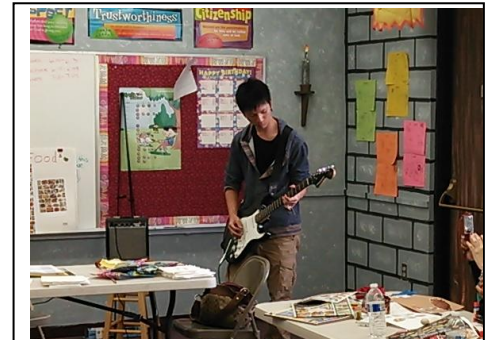

Topic 2 New Study Center

After the campus tour, we went to a new study center to study English. Teachers found that the new place is better for us to be separated into two groups and learn English much seriously. We all appreciated their efforts and considerations.

Topic 3 The Class

In the class, the teachers devised a new way to teach English. They not only used the textbook, but also used outside materials, such as making the students cut out some food advertisements, bringing in a guitar to let the student play, and bringing some sweets to show them and let them eat during their break time. The students enjoyed making the dishes and introducing their favorites. No one felt bored.

< From Students' Diary >

Today, we visited the Victor Valley College. I saw many things there. I could take some nice pictures there! In the English class, we ate some American snacks. I like American food, but don't like snacks. They're too sweet and colorful for me! In my house, I enjoyed playing with my host's grandchild. My host sister cooked dinner for me. The taste was delicious! She is very good at cooking! (Hiroyo Yamamoto, Jin-ai HS)
