

Study Tour in California

Hosted by Fukui Prefectural Board of Education

Group A

The 7th Day

Tuesday

March 19, 2013

Topic 1 Elementary School Assembly

Today we visited Victoria Magathan Elementary School in the morning. At the morning assembly, we showed our AKB dance and did Japanese Quiz game on the stage. There were more than 300 students in the hall. We tried our best and let them learn about Japanese culture.

Topic 2 In Each Classroom

After the assembly, we separated into some small groups and went into each classroom to see the students. In the classroom, the students and teachers asked some questions about Japan. We answered these questions, gave them some presents like *origami*, and took pictures with them. Some students

said 'Konichiwa' to us in a big voice. We were very glad to hear that!

Topic 3 At the Study Center

Today we had our 3rd English lesson. We studied about movies, looked for our favorite movies from some newspapers, and did roll plays. We could gradually understand what our teacher said correctly. After the lesson, we watched a cartoon movie until our hosts came.

< From Students' Diary >

I went to an elementary school in the morning. We showed an AKB48 dance to children, who were from kindergarten to second grade, and we showed dance again and did some quizzes to children who were from third grade to six grade. Then I went to two classes and was asked some questions about Japan from children. I took many pictures with them. Some children's hairstyles are very interesting. For example, some children's hair colors are pink, and other children's hair are like a mohawk. They are very cute! During lunch, I talked with my friends. Some are home sick, but I'm not! I enjoy American life very much! I watched 'Happy feet' in English class. (Yumi Tamaya, Fujishima SHS)
