The lesson about LA tours

Visit to Excelsior High School

< From Students' Diary >

Today we went to the high school. The most surprising thing was the atmosphere of the whole school. It was free. The class of physics was very hard for me to understand because of the terms. On the other hand, the math class was very easy, but I learned the signals of the word "radicals". I'm looking forward to going to high school tomorrow. <from Takefu

SHS>

I went to eat sushi today. The American sushi was different from the Japanese sushi. It is gorgeous visually, the taste is sweet. However, it was delicious!! <from Mikuni SHS>

We went to IN-N-OUT and ate a cheeseburger. I heard they make very delicious hamburgers. After I ate it, I think so, too. It is very, very delicious!!! After lunch we went to a high school, and joined classes. I like American class style! I wanna go to the school here!! <from Fukui Shogyo SHS>
