Visiting a High School

On the 9th day, our students visited the same high school as yesterday in the morning. They were relaxed because they visited the school again. When they saw the American students they talked with yesterday, they got close to each other and talked again.

Their activities were almost the same as yesterday. Yesterday they joined some different classes, but today each of them joined only one class because they had to leave school earlier than yesterday.

Preparing for Farewell Party

After leaving school, we went to the church where we will have farewell party on Saturday. The students arranged chairs and tables, and made various kinds of paper crafts (origami) for their host families.

After a while, they went back to the study center to take the ESL class. In the class, they wrote thank-you letters to their host families and learned about Hollywood, where we will go tomorrow.

< From Students' Diary >

In the morning, we ate many foods. I didn't like green olive and something white. Brownie and fruits were delicious. I love them. In the daytime, we went to an elementary school. My host brothers go to the school. I wanted to meet them, but I couldn't. (Chinami Oshima, Mikuni SHS)

I ate many kinds of foods. Some were delicious, but some were not. After that, we went to an elementary school. I enjoyed it. I felt the students there enjoyed talking with me. (Satsuki Kawaguchi, Takefu Higashi SHS)

I went to a high school for the first time. I studied geometry and Spanish. I want to study Spanish in the future. After school, I went to a shopping center. I went there with Keina. And my host father took me to "In 'N' Out." I had wanted to go there since we had heard about the shop. (Raika Hatayama, Maruoka SHS)
