SOL&TRICK CO.,LTD. / Near-infrared blocking IRUV1000 Sunglasses

<p>Company Name</p>	<p>SOL&TRICK CO.,LTD.</p>
<p>Main Products</p>	<p>Sunglasses, Reading Glasses</p>
<p>Key Selling Point</p>	<p>We offer products that prioritize functionality.</p>
<p>Product / Technology Name</p>	<p>Near-infrared blocking IRUV1000 Sunglasses</p>
<p>Picture</p>	
<p>Product / Technology Description for Customers</p>	<p>This product is a pair of sunglasses equipped with the high-performance IRUV1000 lenses, developed in Sabae—Japan’s renowned eyewear production region—that block three types of harmful light: ultraviolet (UV), blue light, and near-infrared rays.</p> <p>Near-infrared rays are said to be a contributing factor to photoaging around the eyes, such as wrinkles and sagging, as well as cataracts. A key feature of this product is its ability to block approximately 98% of near-infrared rays.</p> <p>Recommended not only for outdoor leisure activities and driving, but also for anyone who wants to protect their eyes and surrounding skin from harmful light in everyday life.</p>

SHUYU CO., LTD. / DEEC, 136-Glass

Company Name	SHUYU CO., LTD.

<p>Key Selling Point</p>	<p>Our original frame technology and ideas received the Grand Prix at a design contest.</p>
<p>Product / Technology Name</p>	<p>BALANCER</p>
<p>Picture</p>	
<p>Product / Technology Description for Customers</p>	<p>Our original brand, BALANCER, features balance frames with small weights placed at the tips of the temples.</p> <p>By reducing the weight borne on the nose, these frames are widely praised for their comfortable fit.</p> <p>They feel surprisingly light when worn on the face and when held in the hand, a difference that amazes most people.</p> <p>We invite you to experience this comfort for yourself.</p>

KOHBAI Corporation / Cellupika

Company Name	KOHBAI Corporation
Main Products	Abrasive materials and tools
Key Selling Point	Products specialized for eyeglass frame manufacturing
Product / Technology Name	Cellupika
Picture	
Product / Technology Description for Customers	<p>Cellupika gently polishes the surface of celluloid and acetate frames, restoring their shine.</p> <p>While it does not achieve the same level of gloss as professional artisans in eyewear production areas, simply applying an appropriate amount to a soft cloth and polishing the frame surface is enough to remove minor scratches and bring back luster.</p> <p>Cellupika also contains protective ingredients for celluloid and acetate, helping to slow deterioration caused by hydrolysis when used regularly as part of routine maintenance.</p>
